Discover the Luxaflex Difference

Luxaflex® Window Fashions – bringing you Australia's largest range of inspirational shading solutions since 1954. Representing the latest in innovation and style, Luxaflex Window Fashions offers a range of internal and external products to suit your home and budget. Discover the compelling reasons why choosing Luxaflex Window Fashions will enhance your lifestyle and provide quality performance for years to come.

Australian Made

We are committed to supporting local industry and manufacturing, which is why many Luxaflex window coverings, textiles and components are manufactured in Australia. Using only the finest materials, our highly skilled craftsmen and craftswomen continue to create custom window fashions that are unmatched in quality and attention to detail.

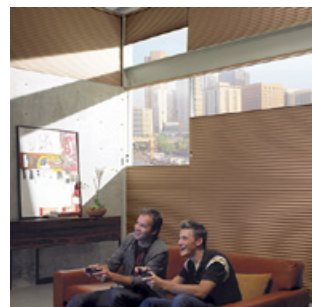

Quality Assurance

For over 60 years Luxaflex Window Fashions has been a brand Australian home owners know and trust. Quality tested and backed by a 5 year warranty¹, we stand behind the quality of our products so you can rest assured your Luxaflex Window Fashions will always work just as beautifully as the day they are installed.

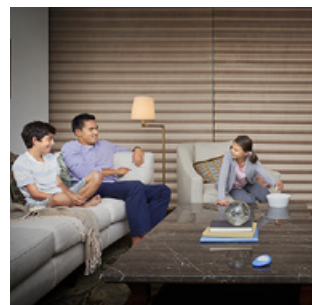

Personalised Service

To ensure that each customer finds the perfect window solution and has the best possible shopping experience, Luxaflex consultants are thoroughly trained to offer unrivalled expertise and advice, from your initial enquiry through to the after-sales service. With an extensive network of over 150 Luxaflex authorised retailers, there's a showroom near you.

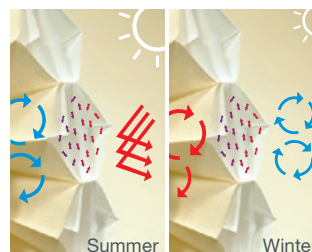

Light Control

Whether to darken a bedroom, reduce glare in a living room, or utilise natural light to brighten a room, different opacities in a window covering can filter or deflect sunlight depending on your needs. By filtering the sunlight, window coverings also help protect against damage to your furnishings caused by ultraviolet light entering your home which causes fading and yellowing.

Privacy

Maintaining privacy day and night is an important consideration for many homeowners, particularly for bedrooms and bathrooms. However you don't need to give up a beautiful view or block out the daylight to achieve this. Day and night time privacy is achieved through louvred products where you can angle the vanes in addition to the large range of dual function products such as Luxaflex® Dual Roller Blinds, Luxaflex® Duette® Duo-Lite Shades, and many others our Luxaflex consultants can recommend to suit your home and budget.

The unique honeycomb structure of Luxaflex Duette Architella Shades traps the heat and prevents heat gain and loss.

Insulation & Energy Efficiency

A well insulated window through the selection of the right window covering can reduce energy consumption as it relies less on air-conditioning/heating to control the temperature of a room. Save up to 43%² on your heating costs with Luxaflex® Duette® Architella® Shades through Winter and save up to 60%³ on your cooling costs through Summer using a Luxaflex® Evo Awning. Combine external awnings and internal blinds for the best result year round.

Child Safety

We understand the importance of safety in the home, especially for those with young children and pets. That's why all Luxaflex Window Fashions are designed with safety in mind and are compliant with the latest ACCC Child Safety Regulations to ensure they can be operated in a safe manner. Our extensive range of innovative operating systems include retractable manual systems, cordless and motorised solutions. We can advise you on the best method to update your entire home.

¹All Luxaflex products that are installed correctly will comply with the Trade Practices (Consumer Product Safety Standard - Corded Internal Window Coverings) Amendment Regulations 2010 (No 1).

Greater choice, refined product series

Luxaflex® Window Fashions continue to evolve the Australian range of stunning window covering solutions for inside and outside your home with the introduction of Luxaflex Product Series.

The broader range ensures Australian home owners now have even more choice from the brand they know and trust, Luxaflex Window Fashions, in Australian homes since 1954.

The Classic Series is our core range of Luxaflex Products that Australian home owners have loved for generations.

The Living Series is our refreshingly affordable range of blinds and shutters customised to suit your lifestyle.

Watch Luxaflex Window Fashions come to life

In two simple steps, the **viewa** app can bring our window shades and awnings to life via your smartphone or tablet. Discover the benefits and beauty of PowerView Motorisation in our house of the future.

1

Download the **viewa** app from the App store or Google play.

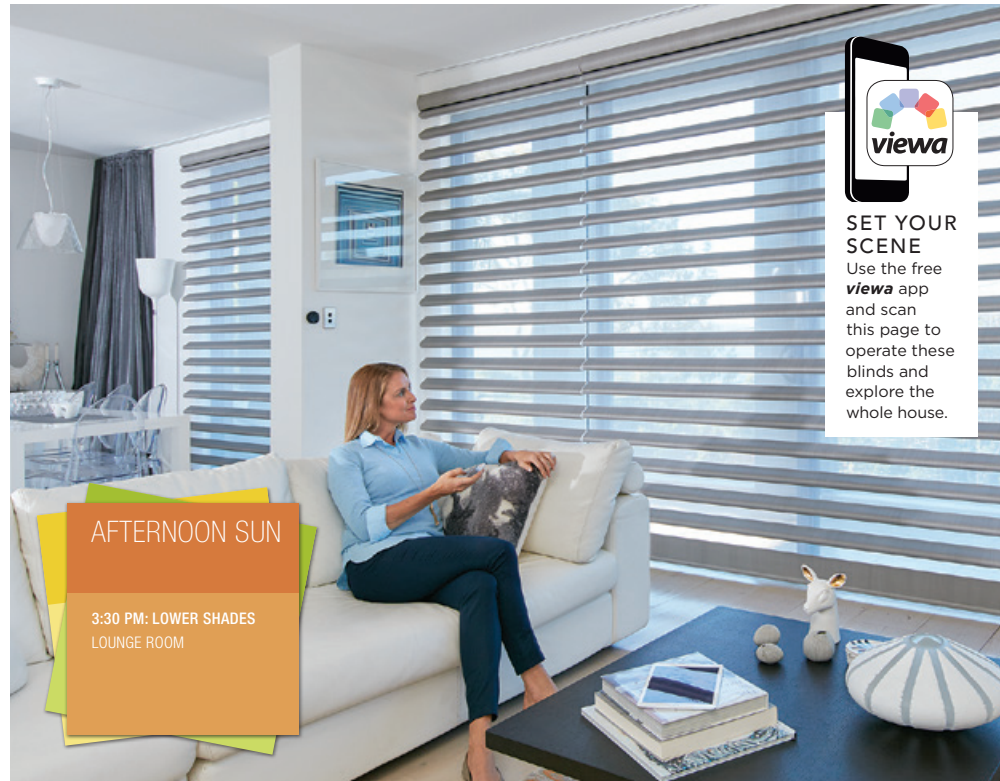

2

Hold your phone or tablet over images where you see the **viewa** logo and watch the content come to life.

Luxaflex® Motorisation and Home Automation

Many of our Luxaflex Blinds, Shades and Awnings are available with the convenience of remote control motorised technology through hard wired or battery systems, including integration into 'Smart Home' automation systems.

PowerView™ Motorisation

PowerView Motorisation is an innovative wireless system that can control a range of Luxaflex shades in your home, creating the perfect room ambiance at the touch of a button. You can program PowerView to move your shades to the exact position you want at any time of the day, and then control and schedule them using the intuitive PowerView App on your smartphone or tablet, or by using the clever Pebble Scene Controller, available in seven colours.

With the PowerView App, you can quickly create customised Scenes that control all the shades in your home. PowerView can even be programmed to move your shades at the precise sunrise and sunset times, based on its knowledge of your specific location.

Motorisation for Roller Blinds

Luxaflex Window Fashions offer a range of motorisation options for your Roller Blinds, whether you are after integration with your home automation system or simple control via wall switch or remote control.

Qmotion® Technology for Roller Blinds

Qmotion Technology offers an affordable and super quiet battery-powered solution for Luxaflex Roller Blinds. It is the only battery-powered blind on the market that has batteries inside the roller tube. This level of integrated motorisation is the first of its kind in the window covering industry, allowing you to operate the blinds by remote control, smartphone, tablet or even by hand.

Motorisation for Awnings

Most Luxaflex Awnings can be motorised for hard-to-reach windows or people who may have difficulty operating large awnings. For added convenience, the new Photon One Solar Panel (available with Evo Awnings and System 2000 Awnings) can be installed without an electrician, providing a cost effective and energy efficient motorisation solution.

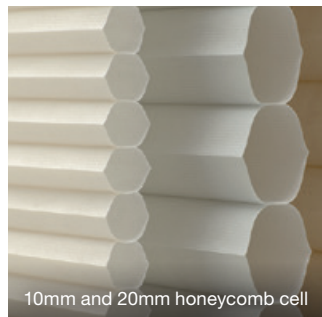

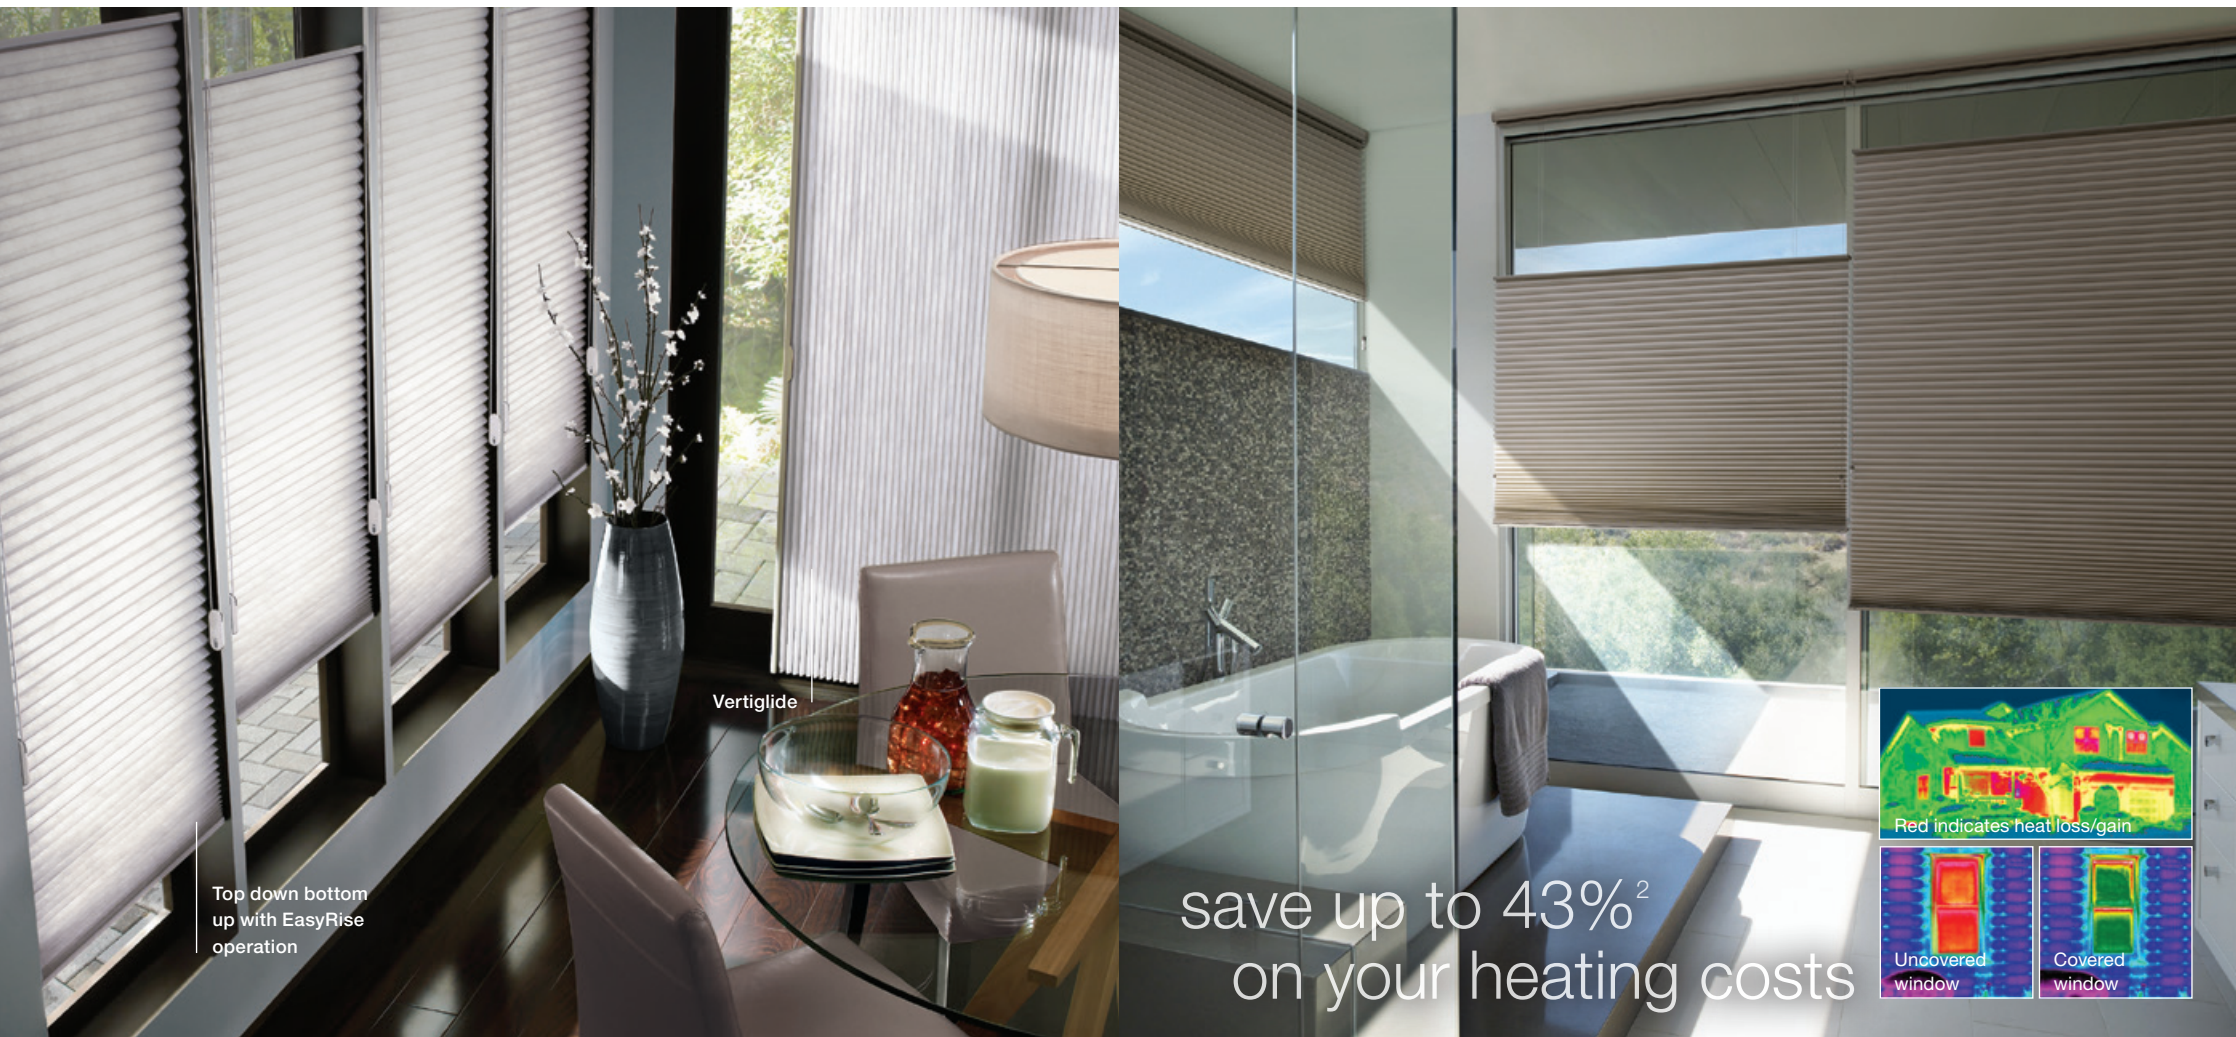

Luxaflex Pirouette Shadings combine the style of a soft window covering with the ability to control light and privacy in an entirely unique way. With four distinctly diverse fabric ranges and a palette of modern colours, Pirouette Shadings transform from elegant contoured folds to opened vanes for functional versatility and contemporary styling.

- Available in 100mm or 120mm vane sizes in translucent or room darkening opacities
- A consistent colour coordinated look is achieved from top to bottom with fabric covered hardware
- Vanes can be fully opened for complete view through, closed for privacy or set at a variable opening for light and privacy control

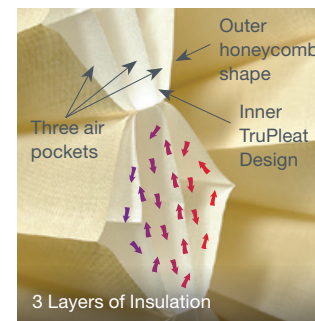

Luxaflex Luminette Privacy Sheers are made from 100% polyester with a seamless fabric pelmet to conceal the exclusive Softrak® System. The sophisticated collection of fabrics come in a variety of on-trend colours ranging from neutrals and subtle tones to soft beige and grey tones blending perfectly into their surroundings, providing soft accents for any decor.

- Available in 89mm vane size
- Choose between translucent or room darkening fabric vanes
- Ease of operation with either a manual cord/wand, travelling wand or PowerView Motorisation
- 180 degree vane rotation to control light and privacy, day and night

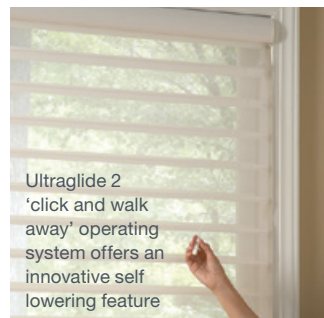

As the most energy efficient type of internal window covering on the Australian market, **Luxaflex Duette Shades** feature a unique honeycomb cell which traps air and acts as insulation for your windows. Easy to care for, there is a large selection of styles catering for arches, angles and skylights, covering almost any window shape.

- Choice of 10mm or 20mm honeycomb single cell
- Extensive range of fabrics in a variety of textures and colours
- Control light and privacy through three levels of opacity – sheer, translucent or blackout

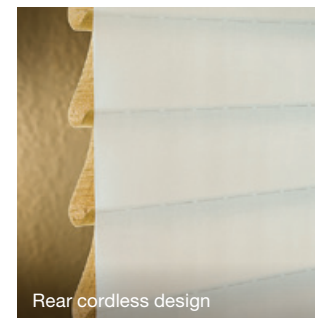

The next generation in Luxaflex Duette Shades is exclusive to Luxaflex Window Fashions; **Duette Architella Shades**, featuring a honeycomb-within-a-honeycomb structure for superior energy efficiency, which reduces heat loss in Winter and keeps your home cooler in Summer.

- Three distinct air pockets trap air within each cell deflecting heat
- The Duette Shades range is available with a choice of operating systems, including PowerView Motorisation
- 20mm Architella cell

Luxaflex Silhouette Shadings are made from 100% polyester making them durable and easy to clean. There are no cords or tapes to obstruct your view to the outside and they are available in a diverse range of colours and textures. Even with the vanes open you get UV protection, while enhancing natural daylight and reducing the need for electric lights.

- Available in 50mm, 65mm and 75mm vane sizes
- Choose from translucent or room darkening fabric opacities
- Operate with EasyRise (continuous cord loop), Ultraglide® 2 (retractable pull cord system), LiteRise (cordless lifting system) or PowerView Motorisation

Luxaflex Modern Roman Shades are the newest innovation in Roman Shades with no exposed rear cords for enhanced child safety. Available in four unique styles with a choice of child safe operating systems and a broad range of fabrics in room darkening and translucent opacities.

- Available in five unique child safe operating systems, including PowerView Motorisation for added convenience

Dual Roller Blinds for day/night light and privacy control

Optional valance

Motorisation available

Adaptable and versatile, Luxaflex Roller Blinds combine sophisticated technology providing smooth operation with a large choice of durable fabrics from room darkening to light filtering opacities. Manual or motorised control with a choice of:

- Single or Dual Roller Blinds
- A large range of Linked Roller Blind Systems
- Optional headbox, side channels or fascia
- Chain drive operation, LiteRise (cordless lifting system), motorised systems including hard wired switch, remote control and PowerView Motorisation

Qmotion® Technology is breakthrough technology which offers an affordable and super quiet battery-powered solution for Luxaflex Roller Blinds. Offering smooth operation, the blinds can be operated by remote control, smartphone, tablet or moved to the desired position by hand. Qmotion Technology uses regular D cell alkaline batteries that are discreetly hidden inside the roller tube. The batteries can be replaced without removing the blinds and can last up to five years* on standard alkaline batteries, ensuring low cost installation and maintenance – no electrician required!

Control your blinds via smartphone using your home Wi-Fi network with the QSync router plug in module.

Classique®

Reverse Roman

With a contemporary look and feel, **Luxaflex Roman Shades** are available in four unique designs – Classique®, Beach®, Signature® and Reverse Roman. Most designs can be paired with a fabric of your choice from the extensive fabric range. Choose from blackout, translucent, sheer or sunscreen fabrics to suit your requirements. Other design options available:

- Decorative tassels
- Timber battens
- Motorisation available

Luxaflex Panel Glide is comprised of a series of smooth fabric panels that glide effortlessly sideways on a simple track mechanism. They create privacy, light control and an outstanding impression in any room.

- Perfect for large windows, doors or as a room divider
- Large range of fabrics from sheer to blackout
- Co-ordinating Roller Blinds and Roman Shades
- Versatile stacking options: left, right or split stack
- Choice of wand or cord operation

Luxaflex Vertical Blinds with the Edge Vertical System are suitable for a wide range of applications and can be stacked to the left, right, centre or split stacked for enhanced light and privacy control.

Available in four track colours, a large range of fabrics and three operating systems: Chain and Cord; Traversing Wand or Monocommand 180°, offering design flexibility for your room.

- Control heat and light by tilting the vanes
- Sloping top suitable for large windows
- One wand function for split and centre stacks

Luxaflex fabrics are made from the highest quality yarns and most are manufactured here in Australia.

Easy to clean & maintain

Many Luxaflex Fabrics are treated with Duraguard® Fabric Protector, which effectively repels most stain causing agents with its proven, water based, preventative, formula. Your Luxaflex Window Fashions will:

- resist water stains from rain, moisture and condensation on windows
- resist oily stains from spills or fingerprints

Reduced allergens for a healthy home

Selected Luxaflex Fabrics are treated with Sanitized® hygiene function, which:

- effectively reduces the development of bacteria, odour and mildew
- protects against the development of bacteria ensuring well-being in your home
- is free of harmful substances and is recommended by institutions for allergy sufferers

Fade resistant

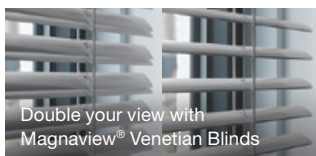

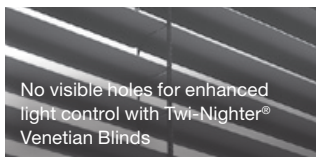

Luxaflex Fabrics undergo stringent testing to ensure they resist fading and maintain their original appearance for many years. All Luxaflex Fabrics have been tested for colour or light fastness on a scale from 1 to 8, where 8 is most fade resistant from exposure to light. The Luxaflex Quality standard is 6 and above. Many fabrics available in Australia do not pass these tests resulting in a shorter product life.

Fire retardant

Luxaflex fire retardant fabrics have been designed specifically to inhibit the spread of flames and smoke in the event of a fire. The fabrics are independently tested in accordance with the Australian Standard.

Luxaflex® Venetian Blinds

Luxaflex Aluminium Venetian Blinds are simply stylish, providing a timeless design that suits many decorating styles and are highly functional for both heat and privacy control. Available in many different colours and special finishes including perforated, with 16mm, 25mm and 50mm slat sizes.

- Versatile bounce back slats
- Hold down brackets - standard on 25mm Slimline
- Architrave and air-conditioning cutouts available
- Sloping top & bottom for shaped windows available
- Autotilt battery operation & motorisation optional

Luxaflex® Country Woods® Venetians

Luxaflex Country Woods Venetians are the perfect choice if you appreciate the look and feel of natural timber. Blending simple functionality with classic style to suit a variety of home environments.

Available in a range of colours to suit your decor in 50mm and 63mm slat size options, with a 90mm valance.

Now available with LiteRise operating system including clear wand to tilt slats for a full child safe option.

Luxaflex® Wood Essence Blinds

Luxaflex Wood Essence Blinds provide a practical alternative to timber blinds. Made from polystyrene, they have the stylish look of timber and are perfect for high humidity areas such as bathrooms, laundries and kitchens as they are impervious to moisture.

Available in a range of colours to suit your decor in 50mm and 63mm slat size options, with a 90mm valance.

Now available with LiteRise operating system including clear wand to tilt slats for a full child safe option.

Luxaflex® PolySatin® Shutters

Hinged model

Impervious to moisture,
for enhanced durability

Luxaflex PolySatin Shutters are the modern alternative to traditional wooden shutters. Made from a Polyresin compound, they are virtually maintenance free and come with a 20 year warranty⁴.

- Perfect for both interior and exterior applications
- PolySatin finish provides the look of painted wood
- Available in three classic shades of white
- Available in hinged, bi-fold and bi-pass (sliding) models
- Available in three operating systems: Traditional, TruView and the SmartView™

Luxaflex® Timber Shutters

Sliding model

Luxaflex Timber Shutters

provide the timeless beauty and enduring craftsmanship of real timber, custom made for your home.

- Provides light and heat control whilst adding style and value to your home
- Choose from a range of 10 painted or stained finishes
- Available in a wide range of models including hinged, bi-fold and sliding configurations, providing the flexibility to cover most window openings whilst maintaining a consistent look throughout the home

Luxaflex® Aluminium Shutters

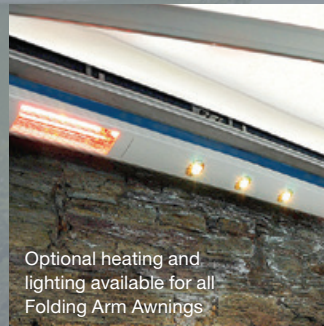

Hinged model

Luxaflex Aluminium Shutters

combine beauty and durability to transform any indoor or outdoor space in your home. Built with strength and security in mind, they can be customised to suit your styling needs.

- Available in four standard powder coat colours: White, Pearl, Silver and Black; and two timber-look finishes: Walnut and Golden Oak
- Security options: Flush Bolt, Security Bolt, Lockable Metal Handle
- Panel configuration options: hinged, fixed, sliding, folding
- Optional blade stay function to hold shutter louvres in place

save up to 60%³
on your cooling costs

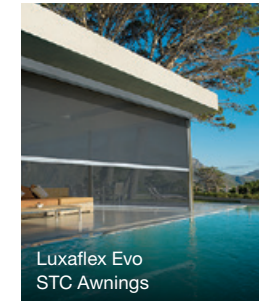

Optional heating and lighting available for all Folding Arm Awnings

The **Luxaflex Contemporary Series of Awnings** combine high quality sun shading solutions for your home with modern designs to enhance your outdoor living area. The extensive range has an awning to suit any outdoor need, from the full cassette Como Awning for large areas to the Ventura Terrace Awning for long narrow projections in courtyards.

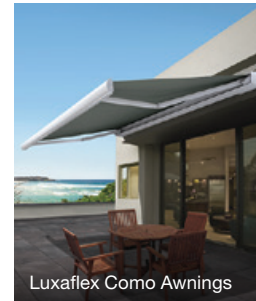

- Optional motorisation and sun and wind sensors provide automatic control for optimal management of heat, glare and moderate wind
- It is recommended that all awnings be retracted in windy conditions
